Notice of Stock Acquisition of Brightree Solutions Sdn Bhd. (Making it a Subsidiary)

Future Architect, Inc. (“the Company”) hereby announces that the consolidated subsidiary North Consulting Group Pte. Ltd. (“NCG”) acquired shares in Brightree Solutions Sdn Bhd. (“Brightree”) based in Malaysia, and made it a subsidiary, as described below.

As part of its medium- to long -term strategies, the Company is expanding businesses in the Asian region, which is rapidly growing. As announced in the “Notice of Establishment of Overseas Subsidiaries and Launch of Businesses in Southeast Asia” released on May 17, 2011, the Company established subsidiary NCG in Singapore. The subsidiary has begun operations. This time, aiming at further accelerating the expansion of businesses in the Southeast Asian market, NCG acquired a 51% stake in Brightree.

Brightree in Malaysia provides services ranging from consultation for the introduction of ERP to operation and maintenance, and its delivery quality has been highly evaluated. By making Brightree a subsidiary, NCG can combine its know-how on high-value added IT consulting and client networks with Brightree’s wealth of experience in introduction and its operation and maintenance base. In this way, NCG aims to expand its business domain, strengthen its delivery capabilities and increase its customer base in Malaysia and neighboring countries.

The Company will continue to establish a structure that can support its customers’ Asian strategies, in cooperation with NCG and Brightree.

As of now, this stock acquisition has little effect on the Company’s consolidated earnings results for the fiscal year ending December 2011.
