

Future Architect Launches FutureApparel Platform Contributing to Digital Transformation promotion in the apparel industry by systematizing our track record in consulting and system development

Future Architect, Inc.
TOKYO, Japan, October 30, 2023 / Future Architect, Inc.

In September 2023, Future Architect, Inc. (Headquarters: Shinagawa-ku, Tokyo; President: SHINGU Yuki), a main operating company of Future Corporation (Securities Code: 4722), began offering “FutureApparel”^{*1}, a core apparel platform based on its extensive experience in consulting and system development in the apparel industry.

FutureApparel is a platform that systematizes a wealth of knowledge regarding operations and systems in the apparel industry and encompasses key areas specific to the apparel industry, such as master management, order and purchasing management, inventory control, receiving and shipping management, and document management. It is characterized by a flexible structure that supports core business operations and can rapidly respond to the functional expansions that accompany business expansions and organizational changes. Since 2015, Future Architect has also been developing OmnibusCore^{*2}, a cloud-based omnichannel strategy support platform service that enables centralized management of product and inventory information. Together with FutureApparel, Future Architect will promote business reforms supported by digital technology to contribute to maximizing profits and sustainable growth.
