

## **dit Contracted for “2024 Practical Cyber Defense Exercise with Recurrence Scenario, Environment, etc., Development Support Work”**

dit Co., Ltd.  
TOKYO, Japan, April 16, 2024 / dit Co., Ltd.

dit Co., Ltd. (Headquarters: Shinagawa-ku, Tokyo; President: INAGAKI Tetsuya), which works to achieve a safe and secure network society in order to protect the future value of Japan, was contracted by the National Institute of Information and Communications Technology (NICT; Headquarters: Koganei City, Tokyo, President: TOKUDA Hideyuki) for “2024 practical cyber defense exercise with recurrence scenario, environment, etc., development support work.”

Based on the government's cybersecurity strategy, etc., the National Cyber Training Center of the NICT Cybersecurity Research Institute has been developing and implementing practical cyber defense exercises called Cyber Defense Exercise with Recurrence (CYDER) for national government agencies, local governments, independent administrative agencies, important social infrastructure businesses, and other organizations as stipulated in the Basic Act on Cybersecurity.

Utilizing technical knowledge gained over many years of cybersecurity research, NICT thoroughly analyzes unique trends in cyberattacks in Japan, etc., and prepares up-to-date exercise scenarios that replicate actual cyberattack incidents. dit will support the development of CYDER exercise scenarios and environments.

### ■ About dit Co., Ltd.

dit works to achieve a safe and secure network society in order to protect the future value of Japan. Since its founding, one notable characteristic of dit has been its advanced technical capabilities, which it has used to promote the utilization of advanced networks since the early days of the Internet, and it has been quick to address cybersecurity issues. At present, dit offers a wide range of services, including risk management, cybersecurity, and the development and operation of related system infrastructure.
