

Two Future Group Companies Change Their Trade Names from January 2025

Future Corporation

TOKYO, Japan, January 1, 2025 / Future Corporation

Two group companies of Future Corporation (Headquarters: Shinagawa-ku, Tokyo; Chairman and President, Group CEO: KANEMARU Yasufumi; hereinafter referred to as “Future”), namely YDC Corporation (Headquarters: Shinagawa-ku, Tokyo; President: TANAKA Takeshi; hereinafter “YDC”) and dit Co., Ltd. (Headquarters: Shinagawa-ku, Tokyo; President: INAGAKI Tetsuya; hereinafter “DIT”), changed their trade names on January 1, 2025.

YDC has changed its name to Future Artisan, Inc. DIT merged with its subsidiary Cybersolution, Inc. (Headquarters: Koto-ku, Tokyo; President: INAGAKI Tetsuya) and changed its name to Future Secure Wave, Inc.

Future Artisan, Inc. was founded in 1972 as a consulting and systems integrator. It designs optimal IT for each client and provides value-added consulting and system services in the fields of design, manufacturing, and logistics.

The company name reflects our desire to be an “artisan,” the future craftsperson who work with clients, as well as the image of a traditional Japanese “craftsperson.”

Future Secure Wave, Inc. helps Japanese companies build a safe and secure security lifecycle. It has been providing consulting services and solutions related to security measures for over 20 years, utilizing advanced networks since the dawn of the Internet. Drawing on its experience in dealing with numerous security incidents and other issues faced by clients, Future Secure Wave, Inc. seeks to provide the world’s highest quality service.

About: Future Corporation

Future Group is a company that conducts "IT Consulting & Service Business" and "Innovation Business" through the use of latest technology. Since the founding in 1989, we have designed and improved the business of our clients through developing systems that integrates business management with IT. Our clients are from various industries including Finance, Manufacturing, Distribution and Logistics. We have also created our own new services based on the know-how we have accumulated in this process. We are contributing to the society by promoting innovation and creating new values for clients that is based on the strengths of "connoisseurship" and "implementation ability" of latest technologies such as AI and robotics.
