

Future Architect Reforms Core Systems at TSI Holdings Introducing “FutureApparel,” a core apparel platform, to contribute to efforts to improve profitability

Future Architect, Inc.
TOKYO, Japan, March 31, 2025 / Future Architect, Inc.

Future Architect, Inc. (Headquarters: Shinagawa-ku, Tokyo; President: TANIGUCHI Tomohiko; hereinafter, “Future Architect”), a main operating company of Future Corporation (Securities Code: 4722), started a full-scale core system renovation project for TSI Holdings Co., Ltd. (Head office: Minato-ku, Tokyo; President and CEO: SHIMOJI Tsuyoshi; hereinafter, “TSI Holdings”) in January 2025.

Future Architect is promoting DX not only in the distribution industry but also in various other fields that support society, including finance, logistics, manufacturing, and energy. Future Architect also started a core renovation project at TSI Holdings in 2015, which has since expanded to Group companies, ensuring stable operation. With this core renovation project, Future Architect is introducing FutureApparel, a core platform that systemizes knowledge gained through consulting and system introduction in the apparel industry, with the aim of establishing a management infrastructure that utilizes digital technologies.

FutureApparel, which will be introduced as a new core system, will contribute to TSI Holdings’ efforts to improve profitability by reducing opportunity loss and inventory loss through the sharing of wholesale, e-commerce, and store inventories, as well as by reducing workloads.

Features of FutureApparel, a platform service supporting innovation and DX promotion in the apparel and lifestyle industries

- ✓ Business standards documentation that brings together knowledge from across the apparel industry
- ✓ Master structure based on industry standards
- ✓ System functionality configuration covering major operations
- ✓ Scalability of business flow patterns
- ✓ Responds to internal trading
